

Andusia have now collected
1 MILLION
TONNES OF RDF!
for recovery in Europe!

Andusia Recovered Fuels Ltd is pleased to announce that it is celebrating the collection of its 1 Millionth Tonne of RDF to be sent to Europe for recovery.

Since Andusia's launch in 2012, the company has grown to be one of the UK's largest independent exporters of RDF across Europe, celebrating many milestones over the 5 years. 2016 saw Andusia collect its 750,000th tonne and then 900,000th tonne in 2017.

Andusia is pleased to be celebrating this exciting industry milestone with two of its long-standing customers. The millionth bale was produced and collected from AWM in Leeds and then sent to SWB in Bremen.

Andusia's 1 Million Tonnes of RDF waste has:

AVOIDED

Avoid **1,000,000** tons of CO₂ equivalent greenhouse gases.

GENERATED

Generate **550,000,000** kWh of renewable electricity. Enough to power 573,913 homes for a month.

REDUCED

Reduce the needs for **250,000** tons of coal, or **42,000,000** gallons of fuel oil.

RECOVERED

Recover **50,000,000** lbs of metals for recycling that otherwise would have been landfilled.

Associated Waste Management is Yorkshire's leading provider of sustainable waste resource management and commercial recycling solutions, employing over 248 staff across over 10 facilities. Mike Robinson from AWM said "Here at Associate Waste Management we are very pleased to be involved in this exciting industry event, and proud that Andusia's millionth tonne was produced at our facility. We have enjoyed a long relationship with Andusia and look forward to this continuing."

The bale was then transported to SWB in Bremen who have been working with Andusia for many years. SWB are a well-established company in the waste to energy market, operating two energy from waste plants in Bremen. Its vision being to provide as many people as possible with modern energy solutions for the future. Michael Bartels from SWB said "Andusia are a strong and credible supplier of ours. With the directors having plenty of experience between them, we can always rely on Andusia to provide not only the best market knowledge, but also service. We're proud to be involved in this milestone for Andusia."

In order to achieve this impressive milestone Andusia worked alongside one of their reliable hauliers to collect and safely deliver the millionth bale, TrailerTrans.

Following a very successful 5 years in business Andusia is excited to celebrate this milestone in RDF export and further confirm its position in the market place.
