ANDUSIA WRAP FILM

100% RECYCLED

APPLICATION & FEATURES

- ▶ The film is specifically designed for wrapping all different kinds of waste
- ▶ Dedicated to all types of wrappers available on the market today
- ▶ Multilayer structure of the film ensures high barrier properties
- ▶ High tear and puncture strength means bales are better protected from breaking when wrapping
- ▶ High tensile strength which means the film is well suited for wrapping heavier wastes
- ▶ Film has a high adhesion quality between the film layers, encapsulating the material but also reducing the risk of leakage and odours
- ▶ Bidirectional orientation of the film helps to maintain correct bale shape
- ▶ Stretchability of the film: 50%-70%

Reference	Colour*	Thickness	Width	Length
AW500	White	25µm	500mm	1800m
AG500	Green	25µm	500mm	1800m
AB500	Black	25µm	500mm	1800m
AW750	White	25µm	750mm	1500m
AG750	Green	25µm	750mm	1500m
AB750	Black	25µm	750mm	1500m

* other colours available on client's request

WASTE REPELLENT

We also offer special rodent-repellent wrap film, designed to protect the bales against bird and rodent attacks.
